The 153 videos listed here(*) will be the only ones available in the seven packs. They are approx. half of the videos currently available in the site. If you really like this kind of videos consider signing the site, but be aware they're stream only and drm-protected there.

I will deliver each pack in every sunday (afternoon in america, evening in europe, monday in asia).

(*)The numbering of the videos is the same used in the SBZ site.
